PROFESSIONAL SUMMARY

Entry-level Full Stack Developer with hands-on experience in building e-commerce platforms and AI-powered applications using Firebase, Netlify, and the Gemini API. Strong foundation in Python and JavaScript, with practical exposure to Generative AI concepts including RAG-based chatbots. Passionate about writing clean, efficient code and applying AI-driven solutions to solve real-world business problems.

TECHNICAL SKILLS

AI Engineering: RAG Architecture, Gemini CLI, Claude Code, Streamlit.

Languages: Python, JavaScript, HTML5, CSS3.

Web & Database: Firebase (Authentication, Firestore), Netlify Deployment.

Tools: Git/GitHub, VS Code, Windsurf, Antigravity.

PROJECT EXPERIENCE

"Recruiter Mode" - AI Portfolio Assistant, *Python, Streamlit, Gemini API*
- Engineered a RAG (Retrieval-Augmented Generation) chatbot that acts as an automated recruiter, answering technical questions about my background 24/7.
- Integrated Google's Gemini API to process natural language queries, anchoring responses to verified resume data to eliminate hallucinations.
- Deployed on Streamlit Cloud for instant accessibility and recruiter interaction.

Full-Stack E-Commerce Platform, *JavaScript, Firebase, Razor Pay | Academic Project*
- Developed a responsive e-commerce application handling real-time inventory and secure user authentication via Firebase.
- Integrated Razor Pay gateway to process test payments securely.
- Deployed Version 1.0 on Netlify, achieving 99.9% uptime and creating an admin dashboard for live product updates.

INTERNSHIP EXPERIENCE

Imagivite Pvt.Ltd (K.S.R Incubation Centre), *Front-End Developer Intern*   05/2024 – 10/2024
                                                                                   Tiruchengode
- Led the frontend development of a corporate website, optimizing load speeds by 20% through efficient CSS/JS minification.
- Collaborated with backend teams to integrate Firebase databases for user Sign-Up/Sign-In functionality.
- Debugged cross-browser compatibility issues, ensuring a seamless UI on both mobile and desktop.

EDUCATION

K.S. Rangasamy College of Arts and Science (Autonomous),   08/2022 – 05/2025
Bachelor of Computer Applications (BCA)   Tiruchengode
- Relevant Coursework: Web Development, Python Programming, Database Management Systems.
